The **ROKAL** Ashtray

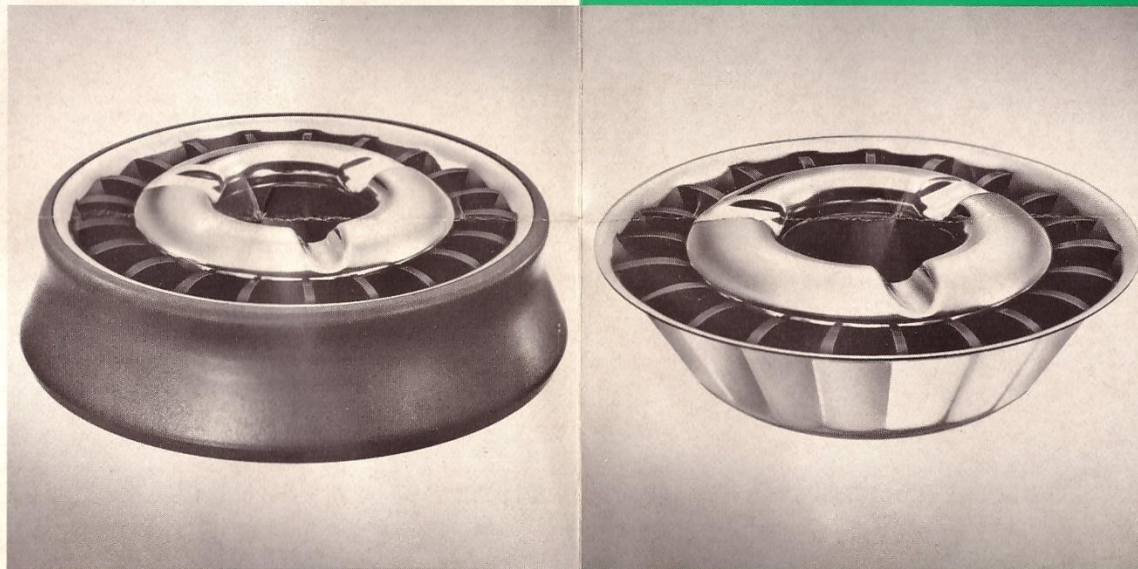

The **ROKAL** Ashtray

This is the idea of the ROKAL Ashtray:

Amazingly simple in concept, this ashtray is offering a solution for many smokers' problems. Just put your cigarette into one of the ashtray compartments, and it will be out immediately, without emitting any smoke. There will be no more offensive smell of embers and crushed butts, no more scattered ashes. Even if stuffed with butts, the ROKAL Ashtray will keep its clean and tidy appearance.

With plastic shell, available in brown, black or grey.

Without shell, metal parts anodized silver or gold.

These are the arguments for the ROKAL Ashtray:

- No crushing out of cigarettes.
- No embers.
- No smoke.
- No offensive odour.
- No scattered ashes.
- No ugly butts.

An ashtray that keeps its graceful and tidy appearance, an ashtray which is easily cleaned after simply removing its fan-shaped insert. This ashtray is a welcome gift for many occasions, simply because it is so smart.
